

Letterfold
independently created
by Evi Binzinger 6/2004[®]

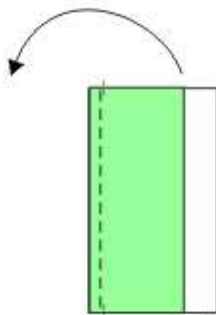

Close, but don't crease.

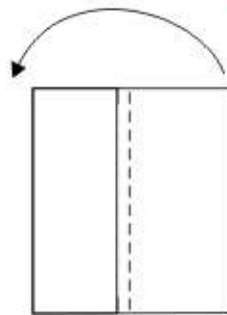

Pinch and open paper again, white side up.

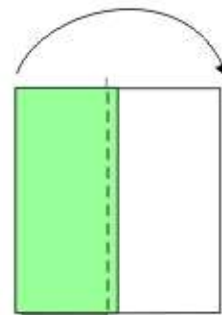

Valley fold about 0,8 mm
on the left side of the pinch.

Valley fold upper layer on
the left side of the pinch
underneath.

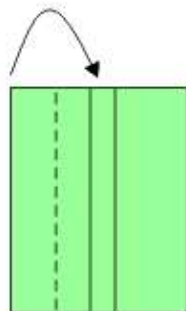

Repeat step 4 and 5 on the
other side. Valley fold on the
right side of the pinch.

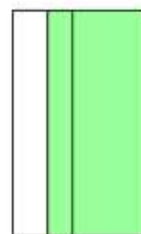

Valley fold upper layer.

Turn model upside down.

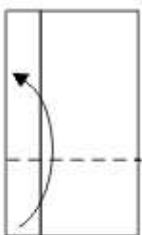

Valley fold and hide
under first layer.

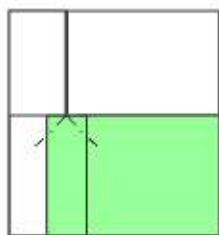

Turn model.

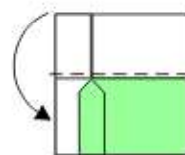

Turn model 180 degrees.

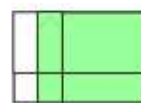

Valley fold.

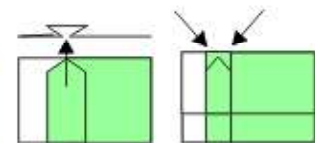

Enlarged view.
Mountain fold corners
behind as shown.

Valley fold.

To close the envelope
tightly, push second
layer under the green
arrow underneath.

Make the tip of
the arrow visible,
by marking it with
your fingernail.
